PureVeda Naturals – Product Manager Portfolio

Welcome to the portfolio website of Kavita Khushalani, an aspiring Product Manager passionate about natural, organic, and toxin-free hair and skincare products. This project is part of the "Introduction to Software Development for Product Managers" course.

🌿 About This Project

This site showcases my product management skills and technical capabilities in building a Minimum Viable Product (MVP) website using:

- HTML, CSS, JavaScript

- GitHub for version control

- GitHub Pages for deployment

- Figma for UI/UX design and wireframing

📁 Sections

- **About Me** – Overview of my background and brand mission

- **Resume** – Downloadable resume with career highlights

- **Work Samples** – Product artifacts including:

  - User Persona

  - Product Roadmap

  - Product Requirements Document (PRD)

  - Wireframe

🔗 Live Demo

👉 [Visit the Live Website](https://KKhushalani.github.io/pureveda-portfolio/)

🛠 Technologies Used

- HTML5 / CSS3

- JavaScript (ES6)

- Git & GitHub

- GitHub Pages

- Figma

Credits

Created as part of the Product Management curriculum with a focus on product marketing, technical enablement, and MVP development.
